

an excellent hearing on it. Both energy security and global climate change have serious implications for national security. But both energy security and global climate change require solutions that cannot be solved by our military or intelligence community. The next President will have to deal with these challenges, and deserves the best judgment of our intelligence community.

This bill ensures that the next President will have that advice. I urge my colleagues to adopt the resolution.

Mr. SHAYS. Mr. Speaker, I rise in support of H.R. 6545, the National Intelligence Assessment of Energy Security Act. This bill would require the National Intelligence Director to submit to Congress a national intelligence assessment on the national security and energy security issues related to energy costs.

Our national security is threatened by our dependence on foreign countries that do not share our views on democracy or our commitment to combat radical Islamist terrorists. By relying on oil from OPEC in the Middle East and countries like Venezuela and Nigeria, we place our national security in the hands of authoritarian governments.

I believe our energy policy should be a bipartisan approach that reduces our demand by increasing conservation, including getting better mileage from cars, minivans, SUVs and trucks, and making electric appliances and lighting more energy efficient, increases the use of renewable fuels such as solar, wind, geothermal and biofuels, reduces speculation in the oil futures market, and increases our domestic supply of oil, natural gas and nuclear power.

The national intelligence assessment required under this bill will show us the national security threats likely to increase should a long term, bipartisan plan not be implemented.

It is critical we understand the consequences of our increasing energy demand and take strong action to reduce our dependence on foreign oil.

Well over half of our energy derived from oil and natural gas comes from foreign producers. Our energy consumption not only fuels our homes, our transportation and our industry, but also transfers our wealth to countries and foreign interests that would do us harm. Our national security requires us to be energy independent, and I urge support of H.R. 6545.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in strong support of H. Res. 6545, the National Energy Security Intelligence Act of 2008, introduced by my distinguished colleague from Louisiana, Representative DON CAZAYOUX. This legislation is an important step in ensuring that rising energy costs do not endanger American lives.

It is obvious that the steep incline in energy prices that has been plaguing our citizens cannot be tolerated much longer, as it has led to rising food costs, transportation costs, and inflation. In addition to these economic issues, energy prices also negatively impact national security.

One key step in managing this situation is assessing the future supply and demand for crude oil, natural gas, and alternative fuels. By doing so, we limit the unpredictability of the energy market and its impact on daily lives. This will prevent energy and food crises like the one we are currently experiencing from occurring in the future.

Additionally, investigating the effects that rapidly escalating energy costs and extreme

price fluctuations could have on national security is absolutely crucial. The possibility of energy sales being used to fund terrorist organizations or other adversaries of the United States, cannot be ignored. Americans cannot allow the money we spend on travelling to work or school everyday to end up in the hands of those who mean us harm. This is why we must know the implications of increasing funding through energy revenue to potential adversaries of the U.S., and we must also understand the intentions of key energy-producing and exporting nations with respect to energy production and supply.

This legislation will allow us to decide which countries are trust-worthy business partners, and which countries we must limit our energy trade with. It is also necessary to examine the national security implications of America's dependence on international energy supplies in order to further determine the benefits of exploring alternative energy supplies.

By requiring the Director of National Intelligence to submit to Congress a national intelligence assessment on national security and energy security issues relating to rapidly escalating energy costs, H. Res. 6545 assures that these issues will be examined and addressed.

As Members of Congress, and representatives of the people, it is our duty to ensure the safety and well-being of Americans. I urge my fellow Representatives to join me in support of H. Res. 6545, which is an essential step for national security.

□ 2000

COMMUNICATION FROM THE HONORABLE JOHN A. BOEHNER, RE-PUBLICAN LEADER

The SPEAKER pro tempore laid before the House the following communication from the Honorable JOHN A. BOEHNER, Republican Leader:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, July 15, 2008.

Hon. NANCY PELOSI,
Speaker of the House,
U.S. Capitol, Washington, DC.

Pursuant to Section 214(a) of the Help America Vote Act of 2002 (42 U.S.C. 15344, I am pleased to reappoint Mr. Thomas A. Fuentes of Lake Forest, California to the Election Assistance Commission Board of Advisors.

Mr. Fuentes has expressed interest in serving in this capacity and I am pleased to fulfill his request.

Sincerely,

JOHN A. BOEHNER,
Republican Leader.

FREE EGYPTIAN BLOGGER KAREEM AMER

(Mr. KIRK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KIRK. Mr. Speaker, I rise today to call upon Egypt to demonstrate it is a force for tolerance in the Arab world by releasing Kareem Amer from prison.

While other prisoners of conscience languish in Egyptian jails, the most troubling case is that of a young human rights blogger, Abdel Kareem Nabil Soliman. Kareem Amer, as he is

known on the blogosphere, was sentenced to 4 years in prison in February 2007 solely for what he wrote on his blog—condemning Islamic extremism and the treatment of women.

Tomorrow, Egypt celebrates Revolution Day, a holiday during which the Egyptian President customarily releases prisoners. I strongly urge President Mubarak to release Kareem Amer, who now has served 17 months of his sentence.

Egypt is one of the largest recipients of U.S. taxpayer aid, and we should ensure that the partners of ours of this magnitude are also dedicated to the freedom of expression. The release of Kareem Amer, the first blogger arrested in the Arab world simply for what he wrote on his blog, would demonstrate Egypt's commitment to Internet freedom and to human rights.

ENERGY PRICES

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, last week, President Bush removed the executive ban on offshore drilling. After the announcement was made, crude oil futures plunged. Prices fell \$6.44 in the biggest one-day drop since the Gulf War. The next day, prices dropped another \$4.50 to \$134. This is not a coincidence.

The Democratic majority says it will take years to produce oil from offshore drilling and that it won't affect energy prices.

If Congress lifts the ban on offshore drilling, we will continue to see oil prices fall. Energy traders do take government policies into account. Deciding to develop our American energy resources can immediately lower the cost per barrel of oil and can provide relief at the gas pump.

Democratic Party leaders should heed the will of the American people and should schedule a vote to increase our American energy supply.

THE 34TH COMMEMORATION OF THE TURKISH INVASION OF CYPRUS

(Mr. ROYCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROYCE. Mr. Speaker, Sunday, July the 20th marked the 34th commemoration of the Turkish invasion of Cyprus. That invasion claimed the lives of 5,000 Greek Cypriots while an additional 200,000 were forced from their homes. Today, nearly 36,000 Turkish soldiers, 1 soldier for every 2 Turkish Cypriots, are embedded in Cyprus, occupying 35 percent of the island. It is one of the most militarized areas in the world.

The Turkish and Greek Cypriots, themselves, live in harmony, making the occupation all the more unacceptable and unnecessary. There have been
